| <i>Background</i>       | <p>The TAC is being asked to discuss and make a recommendation to the Policy Committee on the current set of project applications. In discussions with ODOT, staff has a few concerns about the durability of the applications to withstand rigorous scrutiny by the Oregon DOT. It is imperative that the projects we submit for the upcoming TIP are as accurate as possible in their cost estimates and number of anticipated phases.</p> <p>Staff is asking that the TAC discuss the possibility of holding off on some of the applications until such time as they can be thoroughly reviewed and, if necessary, revised to ensure their ability to move through the implementation process.</p> |                           |
